THE INDUSTRIAL AND AGRICULTURAL EXHIBITION, CALCUTTA, 1906.

RULES AND REGULATIONS.

1. Articles of indigenous art or manufacture, as well as natural, mineral or agricultural products from any part of India, and adjacent British Possessions, will, as a rule, be accepted for the Exhibition. Implements or machines of foreign manufacture, which, in the opinion of the Exhibition Authorities, are likely to promote or develop Indian industries, will also be accepted.

2. No explosives or any substance which, in the opinion of the Exhibition Authorities, is noxious or dangerous, will be admitted.

3. Intending Exhibitors should refer to the printed lists, attached herewith, of the sections and divisions into which it is intended to classify the Exhibits. The classified list is meant only to serve for general guidance, and will not prevent Exhibitors from sending articles not specifically enumerated therein. Such articles will, however, be admitted at the discretion of the Exhibition Authorities.

4. Works of art and articles of special merit, including those of antiquarian interest, will be thankfully received from gentlemen who do not aim at any commercial advantage or benefit. All arrangements for the display of the exhibits lent will be made by the Exhibition Authorities at their own expense.

Gentlemen, desirous of sending Exhibits on loan should write to the effect, giving all the necessary particulars about their Exhibits, to the Secretaries, who will inform them of the acceptance of their offer and make with them all the necessary arrangements in connection with the exhibition of the offered articles.

5. Applications for space in the Exhibition *Pandal* specifying the space that will be required, should be made at once in the form annexed and should be accompanied by a fee of Rs. 5.

(It will be left to the option of the Exhibition Authorities to reduce or remit the above-mentioned fee in such cases as they think fit.)

6. Intending Exhibitors are requested to send in to the Secretaries, as soon as possible, a list of their proposed exhibits, in the printed form attached herewith. These lists should reach the Secretaries *at the latest by the* 15th of October.

7. Exhibitors are requested to mention in their application whether they intend to illustrate practically the process of their manufacture, and, if so, to describe the nature of the demonstration. Steam or any other power required may be supplied by the Exhibition Authorities, if there is sufficient demand, on such terms as may be agreed upon.

8. The Exhibition Authorities will inform the applicants whether they are registered as Exhibitors and will state the number allotted to them.

9. Each Registered Exhibitor will be allowed a covered space of 5 ft. by 5 ft. free of charge, in each section but additional covered space may be obtained, subject to a minimum charge of 8 annas per square foot.

10. Exhibitors may obtain, on such special terms as may be agreed upon, open space for the exhibition or practical demonstration of machinery, etc. They will be allowed to erect the necessary structures at their own expense but according to plans approved of by the Exhibition Authorities.

11. The Exhibition Authorities will have absolute discretion as regards the acceptance or rejection of Exhibits and the allotment of space, covered or uncovered.

12. Exhibits will be received, from the 15th of November 1906 to the 1st of December 1906. They may be sent by Railway or Steamer as "Parcel" or "Goods," or through Post, or may be delivered personally, or through agents between the hours of 10 A.M., and 4 P.M., at the above address or at the exhibition grounds and to authorised persons who will be in attendance there. Receipts will be granted for the articles so delivered. In case of goods forwarded by Railway, Steamer or Post, the freight must be prepaid and the parcels preferably insured. Exhibits forwarded "unpaid" will be refused.

13. All packages received or delivered must bear a label on the upper covering specifying the name and number of the Exhibitor, and addressed to the Honorary Secretary. They must contain inside a list in duplicate with all particulars required under Rule 19 in regard to the Exhibits in the package. This list will be compared with the previous list submitted by the Exhibitor along with his application and a formal receipt will be given to the Exhibitor for the articles found in good condition.

14. Exhibitors failing to send their goods and appropriate the space allotted to them by the 1st of December 1906, shall forfeit all right to exhibit, and shall not receive any refund of the payments made by them. No refund also will be given for occupying less space than that applied and paid for and allotted; and the unoccupied space will be disposed of as the Exhibition Authorities deem fit.

15. Every facility will be afforded to Exhibitors or their agents in connection with the transport, display, sale and care of their Exhibits.

16. Exhibitors must bear all expenses incidental to the transport and the delivery of their Exhibits, as well as their removal after the Exhibition is closed. If the Exhibitors require for the display of their Exhibits in the *Pandal* and *special* arrangement or construction, stands, cases, tables, shelves, etc., or have to mount their machinery and apparatus, they must carry out all this themselves, and at their own cost, and in accordance with plans approved by the Exhibition Authorities.

17. Such assistants, servants, or other attendants as an Exhibitor may require for service at his stalls may be allowed to enter the Exhibition *Pandal*, on obtaining a pass from the Secretaries. All such attendants shall have to obey the orders of the Exhibition Authorities and the supervising staff appointed by them.

18. All reasonable precaution will be taken to guard the premises of the Exhibition, and secure the safety of the Exhibits. The Exhibition Authorities, however, do not at all hold themselves responsible for any damage or loss, however occurring. Exhibitors wishing to insure their articles may apply to the Secretaries, who will arrange for the same on payment of the necessary charges. All valuable Exhibits, such as jewelry, gold and silver plate, must be forwarded under the charge of an attendant.

19. Every Exhibit must bear a label showing the name or description of the article, its price, the place and the date of its production or manufacture, the names of the manufacturer and the Exhibitor, and if purchased the place and the date of its purchase.

20. In the Exhibiton stalls orders for articles may be registered but no ready sale will be allowed. But to suit the convenience of the visitors and the Exhibitors a portion of the Exhibition enclosure will be laid out in the form of an arcade where the Exhibitors under prescribed regulations will be allowed to stock their articles for purposes of ready sales.

21. Exhibitors who are unable to attend personally or send agents in charge of the exhibits may make special arrangements with the Secretaries for the exhibition of their goods, subject to the provisions of the foregoing rules, and on payment in advance of all estimated expenses, which may be ascertained on application.

22. The Exhibition Authorities reserve the right to remove the Exhibits of any person from the Exhibition grounds who does not conform to their rules and regulations.

23. No article exhibited may be copied, photographed, drawn, or reproduced in any manner, without the special permission of the Exhibitor and the Exhibition Authorities. General photographs of the stalls may, however, be taken with the permission of the Exhibition Authorities.

24. Arrangements with reference to machinery in motion will form the subject of special regulation.

25. A separate section will be allotted for the display of work done by ladies.

26. The Exhibition will be opened in the 1st week in December 1906, for the public and will continue for a month. An official catalogue of all Exhibits with the names and addresses of the Exhibitors and their Agent or Agents, if any, will be published by the Exhibition Committee, before the opening of the Exhibition. A Committee of specially qualified gentlemen will be appointed as Jurors, who will examine the Exhibits, determine their relative merits and decide which of them deserve special recognition. The decision of the Jurors will be final. Gold, Silver and Bronze medals will be awarded according to their verdict. Certificates of merit will also be given. The names of the successful Exhibitors will be published together with a description of the Exhibits and the medals and certificates they have respectively obtained.

27. All persons who become Exhibitors shall, by so doing, be held to signify their assent to, and acceptance of all the foregoing Rules and Regulations, and also such other Regulations as the Exhibition Authorities may hereafter issue.

N. B.—All communication should be addressed to—

THE HONORARY SECRETARY, EXHIBITION COMMITTEE,
62, Bowbazar Street, Calcutta.

PROSPECTUS.

THE INDIAN INDUSTRIAL AND AGRICULTURAL EXHIBITION, 1906.

It is proposed to hold the annual Indian Industrial and Agricultural *Exhibition* this year at Calcutta early next December at the site of the Old Tramway Depôt and on the extensive grounds adjoining the General Hospital which have been acquired by the Bengal Government and kindly lent for the purpose of the Exhibition.

The Indian Industrial Exhibitions held annually since 1901 have served greatly to popularise and encourage the Indian arts and industries and their usefulness has been recognised by all sections of the press and the public.

The first of these Exhibitions was organized and held in Calcutta in connection with the Indian National Congress in December 1901 and has since then been held at Ahmedabad in

1902, at Madras in 1903, at Bombay in 1904 and at Benares in 1905. The Exhibition of 1906 will be similarly held in connection with the forthcoming Calcutta Session of the Congress.

The management and organization of the Exhibition has been entrusted to a Committee representative of all sections of the community, the members of which need not in any way identify themselves with the politics of the Congress. The accounts of the Exhibition and the Congress have been kept separate since the Madras Exhibition of 1903 and this practice will be observed as regards the keeping of accounts of the forthcoming Exhibition.

The organization of the Exhibition is likely to prove costly but large guarantees have been given by many leading men of Bengal.

The Government of Bengal fully recognizing the industrial and educational value of such Exhibitions has very kindly offered to give special facilities for the Exhibition of all such articles from its Agricultural, Art, Forest, Sanitary and other departments as may prove useful or instructive to the public and also to help in other ways the organisation of the Exhibition.

However, an undertaking of this nature can only succeed with the active co-operation of all sections of the community and we hope that all will join hands to make the Exhibition a success and worthy of this great city.

Although the scope of the Exhibition is confined to articles of indigenous growth and manufacture yet arrangements will be made for the exhibit of machinery and appliances of foreign manufacture which are likely to help and develop Indian industries.

An Arcade (chowk bazar) will be a special feature of the Exhibition where Exhibitors will be allowed to keep a stock of their exhibits for ready sale.

A provisional Executive Committee of the gentlemen named below have been formed with powers to add to their number.

All communications to be addressed to the Honorary Secretary and all remittances to the Honorary Treasurer at the "Exhibition Office," 62, Bowbazar Street, Calcutta.
